

## Regn med troldmanden Pythagoras

### Plus og minus

### Forberedelse:

Print side 1 (plus) og 2 (minus) til hver elev.

Laminér siderne.

Print de følgende sider (kan evt. lamineres for holdbarhed), og lad eleverne klippe brikkerne ud.

I skal bruge en whiteboard tusch og en klud/svamp el. lign. til aktiviteten.

### Lav regnestykker i troldmandens glas:

Lad eleverne skrive tal i de små tomme firkanter øverst på glasset.

Derefter lægges samme mængde brikker i glasset og tælles sammen.

Eleven skriver regnestykket og facit i boksen under glasset.

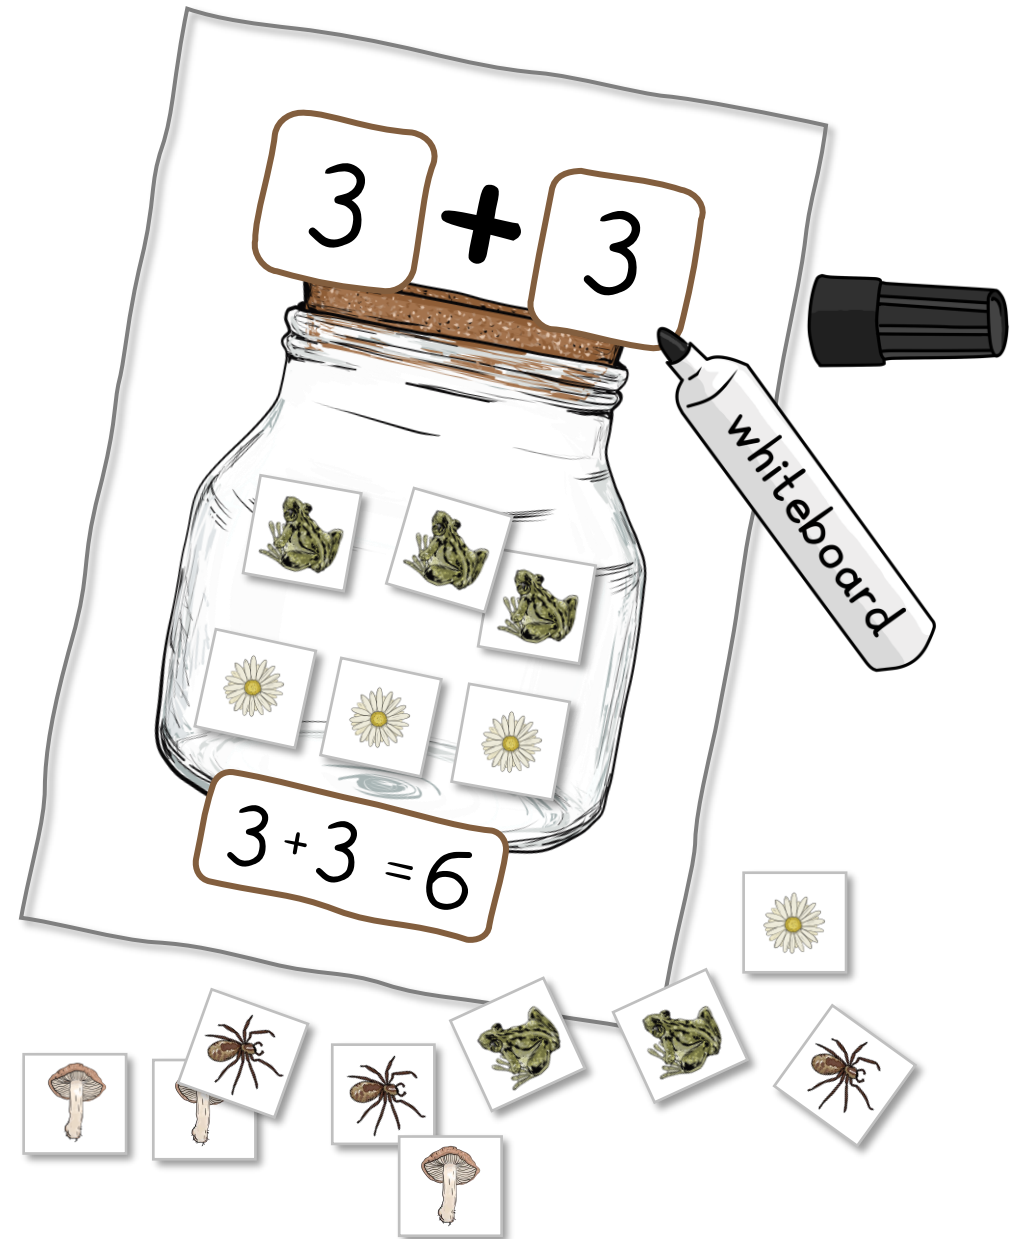

Visk ud og lav et nyt regnestykke – igen og igen!

### Ekstra:

#### Regn to og to:

Lad eleverne skiftes til at skrive regnestykker til hinanden.

Tegn selv nye brikker med kryb, sten, diamanter eller lign. til sjove regnestykker.
